

WEBINAR 31.03.2021., od 13,00 - 15,00 h
“Prednosti u procesu projektovanja pomoću BIM tehnologije” /
„Advantages in the Design Process using BIM technology“
Predavači / Presenters: Todor Krastev, Dimo Jelev, Boyan Drumev
(Blueberry Consilio Ltd., Sofia, Bulgaria)

Prva Sesija / First Session – trajanje / duration: 45 minuta / minutes

1. Glavne teme povezane s BIM tehnologijom dizajna /
Main topics related with the BIM Design Technology
Predavači / Presenters: Dimo Jelev, Boyan Drumev – trajanje / duration: 15 min
2. BIM u industrijskim objektima /
BIM in Industrial Buildings
Predavači / Presenters: Dimo Jelev, Boyan Drumev – trajanje / duration: 15 min
3. BIM u stambenim i poslovnim zgradama /
BIM in Residential and Commercial Buildings
Predavač / Presenter: Todor Krastev – trajanje / duration: 15 min

PAUZA / BREAK – trajanje / duration: 15 minuta / minutes

Druga Sesija / Second Session – trajanje / duration: 45 – 60 minuta / minutes

1. Video demonstracija procesa projektovanja u industrijskom pogonu pomoću BIM /
Video demonstration of the design process in Industrial Plant using BIM
Predavač / Presenter: Dimo Jelev – trajanje / duration: 10 min
2. Video demonstracija postupka projektovanja pomoću softvera BIM za izradu čeličnih detalja /
Video demonstration of the design process using BIM software for Steel Detailing
Predavači/Presenters: Dimo Jelev, Boyan Drumev – trajanje/duration: 10 min
3. Video demonstracija BIM tehnologije u stambenoj zgradi /
Video demonstration of BIM technology in Residential building
Predavač / Presenter: Todor Krastev – trajanje / duration: 10 min
4. Pitanja i komentari / Questions and comments – trajanje / duration: 15 - 30 min
